

ABDM – TNHSP

APRIL 25, 2025

DISTRICT-LEVEL WORKSHOP ON EMERGING DIGITAL NEEDS IN HEALTH & LAUNCH OF ABDM MICROSITE IN COIMBATORE

About the scheme

- Ayushman Bharat Digital Mission is a Government initiative, aims to develop the backbone necessary to support the integrated digital health infrastructure of the country. It empowers individuals with a unique ABHA ID, enabling them to securely store and share their health records across healthcare providers with their consent.
- ABDM seeks to make healthcare delivery more efficient, inclusive and patient centric by promoting interoperability, standardization, and seamless access to health information. It also fosters innovation by encouraging private sector participation and data-driven decision making for better public health outcomes

What is microsite?

The "100 Microsites Project," initiative by the National Health Authority, is designed to accelerate the ABDM adoption among private healthcare providers. This initiative aims to integrate a wide range of private healthcare facilities—including clinics, hospitals, laboratories, and pharmacies—into the ABDM ecosystem.

In Tamil Nadu, under the directions of the State Mission Director, ABDM, the ABDM team is implementing the Microsites Project with M/s PATH as the Development Partner and M/s Gramodaya as the Interfacing Agency in the following locations:

1. AVADI, Tiruvallur District
2. Krishnagiri Taluk, Krishnagiri District
3. Hosur Taluk, Krishnagiri District
4. Chennai
5. Tiruchirappalli
6. Coimbatore
7. Madurai

The workshop was inaugurated by **Thiru. Pavankumar G Giryappanavar, I.A.S.**, District Collector of Coimbatore, in the esteemed presence of the Joint Director of Health Services, the Dean of Coimbatore Medical College, and other eminent officials. Their participation underscored the district's commitment to embracing digital health initiatives and fostering a collaborative environment for stakeholders.

The District Level Workshop on Emerging Digital Needs in Health aims to bring together key stakeholders from the health sector to discuss, promote, and accelerate the implementation of the Ayushman Bharat Digital Mission (ABDM) in Coimbatore district. With the increasing emphasis on digitization in healthcare. It offers resources and guidance on the **Health Facility Registry (HFR)**, **Healthcare Professionals Registry (HPR)**, and integration of **ABDM-compliant Hospital Management Information Systems (HMIS)**.
